Join Timon and Pumbaa as they travel the globe in style – and safety!

Safety Smart® On the Go!
Our favorite Safety Ambassadors teach students the four Safety Smart® points of safe travel: slow down, pay attention, use proper safety equipment, and don’t distract! The pair’s hilarious and helpful adventure explores safe practices in travel, whether by bus, car, motor scooter, plane, train, boat – or ostrich! Life is a journey, so students can make sure theirs is a safe one, regardless of where they are – all thanks to Timon and Pumbaa!

Parents’ Choice® Silver Award, 2014

In addition to the 12-minute animated short, this title also includes 9, 2-minute interstitials.

A Better World
Is a Safer World!

Safety Smart® Honest & Real!
Being Safety Smart® isn’t just about travel safety, fire safety, or staying safe while searching the Internet – it is also about developing the character traits necessary to make our entire world a better place! Students join Timon and Pumbaa as the pair demonstrate ways to identify and practice good character traits such as honesty, kindness, and responsibility. Whether they are offering a helping hand, doing their chores, or owning up to their mistakes, our favorite Safety Smart® duo use the study of good character to help kids learn how to make responsible, positive choices that will improve their own lives, and the lives of the people around them.

They Spoke Out: American Voices Against the Holocaust 1938-1945

In the tradition of WWII-themed graphic novels such as *Maus*, six remarkable motion comics tell the dramatic stories of the brave people who raised their voices to advocate for Jewish victims of the Nazis.

**This Classroom Edition DVD includes:**
- Correlations to national curriculum standards
- Educator’s Guide
- Public performance rights for classroom/educational use only
- Bonus: Includes *A Legacy Through Words*, a featurette that inspires students to journal

Disney Educational Productions recommends that educators preview the program before showing it to students. The program contains some scenes of suffering and death.

The American Presidents

American History is much more than dates and documents—it’s the dynamic story of the real men and women, immigrants and Native Americans, who together built our country. The American Presidents is a fresh and relevant narrative (developed with a producer of The Daily Show and The Colbert Report) about the people who led this country through change—from an early idea of democracy to our first African-American president.

Revolution and the New Nation and Expansion and Reform

Features the first 11 presidents
The first in a four-part series, this DVD includes short-form biographies of the first 11 U.S. presidents—beginning with George Washington and the birth of a nation to the “dark horse” James Polk. The educational feature The Making of the Presidency explores how and why the United States selected presidency over monarchy.

Civil War and Reconstruction and Development of the Industrial U.S.

Features the 12th–25th presidents
The second in a four-part series, this DVD includes short-form biographies of the 12th-25th U.S. presidents—beginning with Zachary Taylor and the threat of southern secession and a civil war to William McKinley and the 100-Day War. The educational feature We The People explores the important role immigrants have played in U.S. history.

Interactive whiteboard content on every DVD!

An exciting, competitive game that uses video clips, photographs and quotes to test students’ understanding of the presidents, their political positions and why they matter in the American story. (Multi-board compatible with Mac and PC versions available.)
Schoolhouse Rock:
America
Take a pilgrimage through American history! Students will feel the beat of history as they learn about the key milestones, events and people that make up this great country.

WILD ABOUT SAFETY® WITH TIMON AND PUMBAA SERIES

Educate and empower young learners to make informed safety choices. Developed in partnership with UL—the world’s leading safety testing organization—this award-winning series teaches kids in grades K-4 how to make everyday decisions that are Safety Smart. Starring the beloved Timon and Pumbaa from The Lion King, every DVD comes loaded with extras like multiple foreign language versions and downloadable educator’s guides with activities and additional resources.

New Low Price!
Your favorite Safety Smart titles are now just $14.99

Cyber Safety Has Never Been More Important

Safety Smart® Online!
Timon and Pumbaa learn they need more than a computer or game console to surf the web—they need safety smarts! Abstract concepts like the Internet, information permanence and anonymity become easy to understand when our favorite safety ambassadors lead the way. Loaded with extras, this new Classroom Edition DVD makes it easy to launch a cyber safety unit in your classroom. Parents’ Choice® Gold Award, 2013

12 minutes • Grades K-4
$29.99 $14.99 • 579-77E41VL00

Safety Smart® Healthy & Fit!
Timon and Pumbaa show students how to be healthy and fit with their germ-free philosophy. From the importance of hand-washing to making healthy food choices, Timon and Pumbaa’s Safety Smart checklist is brimming with valuable kid-friendly lessons on how to prevent the spread of germs and maintain overall well-being. Now, that’s Safety Smart!

Parents’ Choice® Silver Award, 2011

12 minutes • Grades K-3
$29.99 $14.99 • 579-77E34VL00
Safety Smart® About Fire!
"Get down, get out, and stay out!" That's just one of the lessons Timon and Pumbaa share to help students understand what to do in a fire emergency. From smoke alarms, fire escape plans and preventive measures such as not playing with matches, Timon and Pumbaa review their Safety Smart checklist—full of valuable and life-saving fire safety information.

22 years ago, Bill Nye the Science Guy made his television debut. 100 episodes later, with 18 Emmys® to his name and legions of fans, the Science Guy is still proving that science rules!

Adventures in Algebra

In this original series, Bill teaches algebraic principles such as fractions, exponents and proportions in colorful and unexpected ways. Each DVD is a collection of five-minute episodes that playfully tackle key mathematical concepts and use real-world examples to demystify math.

**Solving for X**

Pre-Algebra, Volume 1

- **Fractions** – We’ll start out in the kitchen but end up in the Otherworldly Zone, where an infinite amount of fractions hide out between one and zero.
- **Exponents** – Bill takes a musical approach and sings “Exponentiality,” a catchy tune celebrating the poetry that awaits us whenever we use the algebraic shorthand known as exponents.
- **Signed Numbers** – We’ll breathe easier once we see how a number’s negative or positive sign simply tells us in which direction we’ve traveled away from zero.
- **Proportions** – Bill makes the scene, using proportional reasoning to size up the famous Hollywood sign.

*Parents’ Choice® Product Recommendation, 2010*

20 minutes • Grades 6 and up

$29.99 • $14.99 • 579-77D90VL00

**Concepts addressed in Solving for X: Pre-Algebra, Volume 1:**

- Fractions
- Signed Numbers
- Exponents
- Proportions

Solving for X

Algebra I, Volume 1

- **Variables** – She called herself “Y.” Tear-y-eyed, one evening she appeared unannounced at his office, asking Detective Nye to uncover the true identity of “X”—who, like her, was clearly another unknown. One thing was for sure: X and Y were variables.
- **Balancing Equations** – Bill ponders the sweetness of balancing equations.
- **Dimensional Analysis** – Bill hits the road to show us how we can zip through algebraic questions involving things like speed, distance and time, just by putting those units of measurement to work.
- **Linear Equations** – Bill takes us bowling to fire some linear functions down the alley.

*Parents’ Choice® Product Recommendation, 2010*

Bill Nye Is Back!
And the future’s never been greener

Renewable Energy
Bill Nye is fueled by passion—to help kids become greener by understanding renewable energy sources! Using his trademark blend of hands-on demos and humor, Bill explains Newton’s First Law. Then, he’s off to the Renewable Energy Lab at UL to compare renewable and non-renewable energy sources such as fossil fuels, solar, wind, and hydroelectricity. Scientists are working every day to develop new forms of renewable energy sources that are safe, efficient, and friendly to the planet. Energy sources that might one day eliminate our reliance on fossil fuels—now that’s Safety Smart!

Parents’ Choice® Gold Award, 2013
21 minutes • Grades 4-8
$29.99 $14.99 • 579-77E42VL00

Electricity
Go on location with Bill Nye at Underwriters Laboratories as he explains the power—and danger—of electricity in a very entertaining way. What is electricity? How does it move through a cord? Why don’t orange juice and electrical “juice” mix? Demonstrations reveal why being safety smart is easy—and perhaps life-saving.

Parents’ Choice® Silver Award, 2009
25 minutes • Grades 4-8
$19.99 $14.99 • 579-77D34VL00

Fire!
Bill Nye the Science Guy ignites learning as he shows students how to be Safety Smart around fire. By explaining the science of fire, including the roles heat, fuel and oxygen play, Bill demonstrates how knowledge and awareness provide the opportunities to learn and practice safe behaviors.

IDMA/DVDA Excellence in Children’s Discs, 2009
26 minutes • Grades 4-8
$29.99 $14.99 • 579-77D63VL00

Germs & Your Health
Bill Nye the Science Guy® magnifies the big science behind tiny germs. By exploring the science of health and germs, Bill shows students how hand-washing, eating nutritious food and getting enough exercise and sleep can help the human body fight illness. The Science Guy demonstrates that taking care of the body isn’t just important to health and well-being, it’s also Safety Smart!

Award-Winning Science Students Love!

A Critically Acclaimed DVD Series and Interactive App That Makes STEM Education Exciting, Real and Downright Fun!

Walt Disney believed, “If you can dream it, you can do it,” and that belief is at the core of Disney Imagineering—the place where imagination meets engineering. Imagineers use science to create and build unique attractions that delight Disney guests around the globe. This curriculum-based science series uses roller coasters, stunt shows, animatronics and other irresistible examples to break down scientific principles in a way that is accessible for all learners. Just imagine what you could do if the whole world was your toolbox!

What teachers are saying about Roller Coaster Ride Builder:

“The videos are a GREAT resource!!”
– Lisa, 7th Grade Science Teacher, TN

“I really like the game—an awesome interactive tool for teaching potential and kinetic energy, friction and momentum.”
– Joy, 6th Grade Science Teacher, HI

“Love it!!! Love it!!! Love it!!!”
– Carola, 8th Grade Science Teacher, AZ

Your Whiteboard Just Got Thrilling!

Roller Coaster Ride Builder

Checkpoint challenges reinforce science principles while students build—and share—the roller coaster of their dreams!

• Five thrilling checkpoints present challenges that only science can solve!
• Reinforces science principles including trajectory, gravity, conservation of energy, Newton’s three laws, friction and more.
• Created with educators, for educators, and matched to National Science Education Standards for grades 4-8.

• Includes 100 student access codes, student performance reporting, video resources to reinforce lessons, sharing capabilities and more.
• Easy to use on interactive whiteboards as well as school and home computers (PC and Mac). Using their personal access codes, students can continue working on their ride designs and science challenges wherever they have access to a computer.

Parents’ Choice® Gold Award, 2011 • Communicator of Excellence, Gold Award, 2011

Science of Disney Imagineering Classroom Edition DVD Series

Electricity
Disney Imagineers show students how electricity brings some of their favorite rides to life. Students will learn the definitions of source, load, conductor and watts, as well as static electricity and its connection to lightning rods aboard the Disney Magic cruise ship.

Parents' Choice® Silver Award, 2010
30 minutes • Grades 4 and up
$29.99 • 579-77E02VL00

Magnetism
From magnetic launchers that propel the Rock ’n’ Roller Coaster from 0–60 in 2.8 seconds, to the audio speakers in Pirates of the Caribbean® attraction, Imagineers employ the forces of magnetism in a variety of surprising ways. Students will learn about the attraction and repulsion of opposite poles, magnetic fields and domains and electromagnets.

Parents’ Choice® Gold Award, 2010
30 minutes • Grades 4 and up
$29.99 • 579-77D87VL00

Animal Adaptations: Communication
How do naked mole rats identify family members? How do dolphins identify each other in murky water? How do meerkats communicate that it’s safe to come out and forage for food? They all rely on communication adaptations—olfactory, auditory and visual. Students will learn to define and identify key adaptations, and listen in on amazing elephant communications that most humans have never heard.

Parents’ Choice® Gold Award, 2010
30 minutes • Grades 4 and up
$29.99 • 579-77E02VL00

Newton’s Three Laws of Motion
From the thrilling rockets of Golden Zephyr to the wild twists of California Screamin’, students will explore concepts such as acceleration, friction and motion. Best of all, they’ll be able to see firsthand the relationship between the motion of objects and the forces that act on them.

Parents’ Choice® Gold Award, 2010
30 minutes • Grades 4 and up
$29.99 • 579-77D88VL00

To order, visit www.DisneyEducation.com or Call 800-295-5010 Hundreds of titles available online!
Fluids
In this DVD, the Imagineers demonstrate how they use fluids to construct rides and attractions like *Grizzly River Run* and *The Seas with Nemo and Friends*. Students will learn that a fluid is any substance that flows or moves easily due to its molecular make-up. They will also discover how fluids move and behave and how they can be used to create mechanical advantage.

Parents’ Choice® Gold Award, 2009 • CINE Golden Eagle Award, 2009
30 minutes • Grades 4 and up
$29.99  $19.99 • 579-77D72VL00

Gravity
Students learn the definition of gravity and the relationship between gravity, mass, and distance. Best of all, they will be able to apply an understanding of forces to explain the feeling of weightlessness on a roller coaster ride. Cool!

Parents’ Choice® Gold Award, 2009
30 minutes • Grades 4 and up
$29.99  $19.99 • 579-77D58VL00

Friction
From roller coaster wheels for *Big Thunder Mountain Railroad* to the shape of a Disney Cruise Line ship’s hull, the Imagineers use tribology (the study of friction) to find ways to reduce drag. Students will learn the different types of friction as well as the roles that gravity and Newton’s First Law play in frictional force. Parents’ Choice® Gold Award, 2010

30 minutes • Grades 4 and up
$29.99  $19.99 • 579-77E01VL00

Each Imagineering DVD includes a bonus “try it yourself” experiment and an assessment game to reinforce key learnings. The assessment is interactive whiteboard compatible.
Energy
The Imagineers reveal the role energy plays in popular theme park attractions such as Test Track and the Mad Tea Party. Students will learn that energy is the ability to do work and that energy is constantly being transferred from one thing to another. They will also identify the difference between potential and kinetic energy and be able to identify examples and benefits of renewable energy.

Disneynature Earth
Disneynature Earth provides an opportunity of a lifetime to witness the astonishing creatures with whom we share our planet. Follow three animal families—polar bears, elephants, and humpback whales—as they embark on massive migrations, weather seasonal changes and struggle to survive in our ever-changing world.
90 minutes • Grades 3-9
$29.99 • $19.99 • 579-77D84VL00

Disneynature Migration
Disneynature Migration sweeps across the surface of the planet to bring you the mysteries of migration. To find out why and how hundreds of thousands of animals, birds and insects leave their homes to travel up to thousands of miles before returning, we’ll follow several species as they make their miraculous journeys. Along the way, we’ll see how both man and nature may conspire against these creatures, making their remarkable treks even more improbable.
25 minutes • Grades 3-9
$29.99 • $19.99 • 579-77D85VL00

Disneynature Predator and Prey
Disneynature Predator and Prey showcases nature’s unending battle for survival. Students will journey on land and under the sea for a riveting look at many species—from caribou and cheetahs to sea lions and sharks—as they both stalk their prey and avoid being stalked themselves. From the amazing variety of adaptations that help predators and prey avoid capture, to the natural order of a food chain, this Classroom Edition DVD highlights the important role predation plays in keeping an animal’s world in balance.
25 minutes • Grades 3-9
$29.99 • $19.99 • 579-77D86VL00

Disney's Animal World
Exciting lessons about animals and their habitats. This 13-DVD series combines live-action footage of animals in their natural habitats and heartwarming animated sequences from Disney classics to introduce young learners to the world of animals. Perfect for grades K-3.
• Bears and Deer
• Elephants and Rhinos
• Foxes and Wolves
• Giraffes and Zebras
